

# Gaskets and Gasket sets suitable for Scania DC 13 XPI

The Scania DC13 is a robust in-line six-cylinder diesel engine with a displacement of 12.7 litres. It is frequently used in commercial vehicles and industrial applications and impresses with its high efficiency and reliability.

Thanks to modern common rail injection (XPI) and exhaust aftertreatment with SCR technology, it complies with current emission standards such as Euro VI.

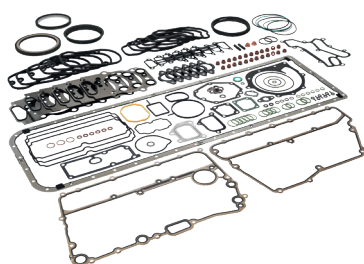

Depending on the version, the engine supplies up to 405 kW of performance and over 2,300 Nm of torque.

Its modular design facilitates maintenance and integration into various systems.
